For more information, supported languages and devices, please visit [www.epsonconnect.eu](http://www.epsonconnect.eu). <sup>6</sup>The tanks will be used simultaneously by the printer and both need to be filled for printing. <sup>7</sup>Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 or 29103. Quoted yields are NOT based on ISO/IEC 24711 or 29102. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set will be lower. <sup>8</sup>Google Cloud Print is a trademark of Google Inc. <sup>9</sup>Automatic set-up compatible with Windows 10, Windows 8, Windows 7, Windows Vista and Mac OS. <sup>10</sup>AirPrint-enabled printers work with iPhone 4s and later, iPad 2 and later, all models of iPad Air and iPad mini, and iPod touch 5th generation with the latest version of iOS, and Mac with the latest version of OSX. <sup>11</sup>Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default simplex.
