

# Cartridge-free printing

## Up to 3 years of ink included<sup>1</sup>

Epson refillable EcoTank printers deliver superb quality, hassle-free printing at an ultra-low cost – without the need for ink cartridges. Bundled with up to 3 years' worth of ink<sup>1</sup>, the range delivers thousands of pages of printing without the cost or hassle of replacement ink cartridges – ideal for home and small office environments.

### Goodbye cartridges

Ultra high-capacity refillable ink tanks

### Ultra low-cost printing

Reduce printing costs by 74% on average<sup>2</sup>

### High-yield

Print thousands of pages before refilling the tanks

### New generation ink system

The new generation EcoTank printers feature a new ink filling system that prevents filling mishaps and minimises spills with an enhanced bottle design that ensures each tank can only be filled with its correct colour. The new bottles also have an airflow system so squeezing is not necessary during the filling process.

Enhanced refill cap

### Mobile printing

Easy wireless printing from smartphones and tablets<sup>3</sup>.

<sup>1</sup>Based on an average print volume of 140 pages per month and considering the lowest yield produced from the first set of inks. <sup>2</sup>Average number of cartridges/savings for printing the number of pages using the bundled ink bottles with the EcoTank range, including hardware price. Comparison made on the average of the A4 EcoTank range versus the average of the top 10 best-selling models in Western Europe, in the period April 2016 – March 2017, as tracked by GfK. Printing costs calculated on the proportion of Standard and XL cartridges as tracked by GfK for the same reference period for the Western European market, using average retail prices. Ink cartridge yields as communicated by the manufacturer's websites. <sup>3</sup>Epson iPrint and Epson Creative Print require a wireless connection and the Epson printing app. Epson Email print, Epson Scan-to-Cloud and Epson Remote Print Driver require an internet connection. For more information, supported languages and devices, please visit [www.epson.co.uk/connect](http://www.epson.co.uk/connect) <sup>4</sup>The tanks will be used simultaneously by the printer and both need to be filled for printing. <sup>5</sup>Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower. <sup>6</sup>Google Cloud Print is a trademark of Google Inc. <sup>7</sup>Automatic set-up compatible with Windows 10, Windows 8, Windows 7, Windows Vista and Mac OS. <sup>8</sup>AirPrint-enabled printers work with iPhone 4s and later, iPad 2 and later, all models of iPad Air and iPad mini, and iPod touch 5th generation with the latest version of iOS, and Mac with the latest version of OSX. <sup>9</sup>Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default simplex.
