The app:

Effortless print and scan experience

The way we live and work is changing, and to support the flexibility required, Brother Mobile Connect provides intuitive, time saving functionality to fit seamlessly into a busy life. Print and scan documents from your mobile device seamlessly. Even change settings such as paper types or colour.

Send a print job, any time, any place

Even when you're out and about, the remote printing function enables you to send your job straight to your printer – allowing you to get on with your busy day, safe in the knowledge that your printouts will be waiting for you when you return.

No more lost scanned files

The Brother Mobile Connect app remembers all your scanned data, so you can easily retrieve files at any time, allowing you to continue working without having to re-scan.

Customisable interface

The home screen of your Brother Mobile Connect app can be customised to suit you – increase the size and position of your most-used features or create a different layout for each printer you own.

Replenish ink cartridges, quickly and easily

You can buy supplies directly from the Brother Mobile Connect app, therefore, no need to remember model numbers or worry about purchasing the wrong ink.

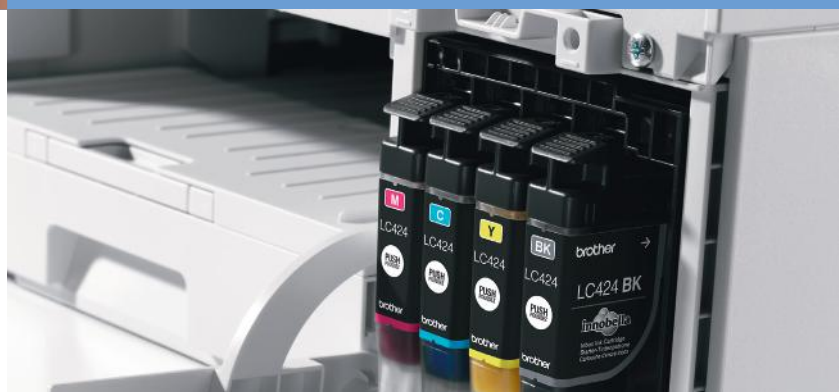

Brother's genuine ink supplies will not only help keep your printer in the best possible condition for unrivalled print quality, they are more consistent than non-genuine supplies.
