

Versatile P-touch desktop label printers

Organise, identify, personalise

www.brother.co.uk

Versatile label printers

The P-touch desktop range of label printers offers versatile solutions for all labelling needs, including SOHO/home office, large office and retail environments, as well as wider business vertical applications.

Simple, one-touch solutions

With a built-in QWERTY keyboard and large graphical display which includes print preview, the PT-D-series models are user-friendly and designed for ease-of-use, fast-typing and optimal desktop handling.

Expanded options for creating labels

The PT-D-series models are perfect for straightforward standalone use, or via PC/Smartphone connectivity* to offer additional label design functionality when paired with Brother's iPrint&Label app and P-touch Editor 6.0 software.

These applications provide expanded options for creating labels beyond basic usage, including specially designed, ready-made templates and the option to create fully customised labels.

* D460BT & D610BT models offer both USB and Bluetooth connectivity.

The PT-D series line-up

The PT-D series suits a diverse range of labelling requirements, from home office, through to larger offices, co-working spaces and retail environments. With three label printers to choose from, each model is designed with these specific environments in mind and equipped with features tailored to the needs of the user.

Offering greater connectivity and functionality depending on your requirements – from basic, standalone use with the entry level PT-D210VP to more advanced options to print labels via Bluetooth using smartphone apps with the PT-D610BT.

Durable Brother TZe label tapes

Specifically designed for the P-touch range of label printers, our laminated TZe tapes have been rigorously tested to stand up to even the harshest conditions. With excellent resistance to water, abrasion, chemicals and temperature extremes, they'll remain legible over time.

They're easy to peel and stick, and come in a variety of colours, widths and sizes. From standard laminated to matt and premium laminated, TZe tapes are suitable for almost any application. Plus, they're designed to work perfectly with your Brother P-touch.

Environments and label uses

PT-D210VP

PT-D460BTVP

Home office / SOHO

Transform your home working space with a professional label printer from Brother. The PT-D210VP and PT-D460BTVP models offer a compact, easy-to-use label printer which prints clear, laminated labels to help personalise your important files and folders, identify home office equipment and cables and organise your storage boxes. Taking the time to carefully label your home office results in an organised work space which increases overall productivity and allows you to focus on the real task at hand.

Typical label use includes:

- Storage labels
- Stationery labels
- Equipment labels
- File and folder labels
- Cable management labels
- Shelf labels

Office

From files and asset management to workspace and meeting room organisation, the PT-D460BTVP and PT-D610BTVP models allow you to create an organised and comfortable working environment for all employees, resulting in maximum productivity in the office. Furthermore, make life straightforward for visitors with name tags and office signage labels.

Retail

Conveying product information and special offers to customers quickly and clearly is crucial in any retail environment. With the PT-D610BTVP model, you can print QR codes for customer scanning, as well as durable barcode labels to track your inventory, which increases the overall efficiency of your stock management function and enables you to keep track of what your customers want. The PT-D610BTVP will optimise your day-to-day operations both on the shopfloor and behind the scenes and maximise the customer experience.

Label uses include:

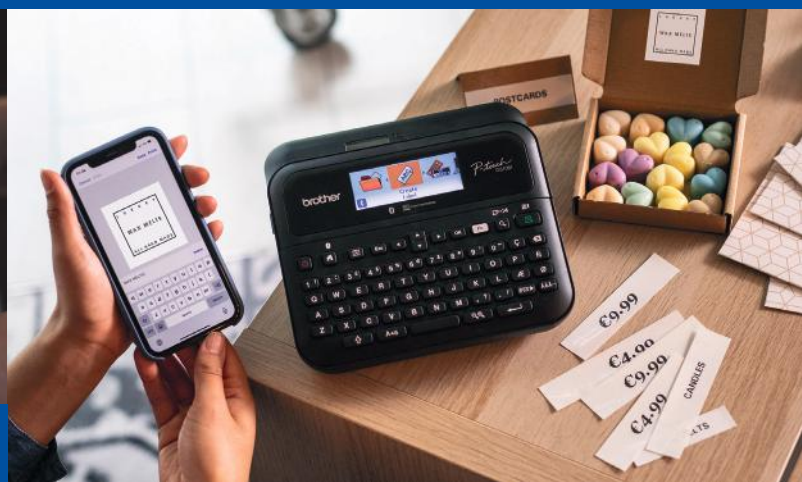

- Asset management labels
- Personal item labels
- Name tag labels
- File and folder labels
- Drawer labels
- Office signage labels

Label uses include:

- Product name labels
- Product information labels
- Shelf edge labels
- Stock management labels
- Signage labels
- Sale/discount pricing labels

Software and applications

P-touch Editor 6.0

Supplied as standard, you can create your own custom labels with pixel precision using this brand new software solution by connecting your label printer to your PC using USB connectivity. The P-touch Editor 6.0 software offers newly updated features including increased number of specially designed templates, additional number, time and date and barcode functionalities. Plus, an overall user interface refresh to provide a truly connected solution for creating custom labels.

Key features:

- Wide range of pre-designed templates for a variety of home office and business label uses
- Customisable templates for flexible editing with over 1200 symbols and 30+ fonts
- Easily find labels you've created in the past, or share labels to Brother label editing apps on your smartphone
- Import data from Microsoft Excel and other databases directly onto labels
- Straightforward barcode/2D code label creation
- Create multilingual labels containing different language symbols using Unicode
- Customise labels to include your company logo

iPrint&Label App

Brother iPrint&Label is a free application that enables you to easily print labels from your Brother label printer using your smartphone or tablet with Bluetooth connection. You can also create labels through the P-touch Editor 6.0 label design software, then simply share to a smartphone or tablet to print, save or edit on the mobile app for a fully integrated solution.

Key features:

- Fully customisable layout, including the option to add boxes, lines and move objects, as well as resize and rotate
- Access to pre-designed templates
- Hundreds of symbols and clip-art
- Add images, photos and logos to your label
- Add barcodes to labels, including QR codes
- Improved and modern looking user interface for ease-of-use, including the ability to quickly reprint saved or frequently used labels to save time
- Import contact details directly from your device onto labels
