

WorkForce Pro WF-C5390DW

Reduce your business printing costs and environmental impact, while increasing productivity with less intervention and enhanced security.

A small workgroup printer perfect for the business environment, from small offices to large corporates. Ideal for those who may have traditionally used lasers and want to cut costs, increase productivity and reduce downtime, while also reducing their environmental impact and improving their CSR reputation.

Save money

The low TCO and fewer required replacement part make this an attractive choice for businesses on a budget. Designed for workgroups, your business can avoid the hidden employee productivity costs associated with centralised printing. Further lower costs by changing consumables less with its innovative ink supply system.

High productivity and low intervention

Delivering faster First Page Out Time (FPOT) for both colour and mono prints than comparable laser printers¹. Print up to 10,000 pages in monochrome and 5,000 in colour without changing supplies. In addition, the WF-C5390DW can print on a wide range of media, including recycled paper, glossy media, envelopes and labels.

Reduce your impact

Improve your businesses sustainability, while keeping productivity high and energy costs low. Benefit from low-power consumption without compromising on an ultra-sharp output.

Built for business

A range of software and tools provide secure print options, and help manage devices remotely. Wireless connectivity also supports printing from mobile devices. And with its brand new, user-friendly GUI, it's intuitive to operate.
